EDUCATION

University of Southern California; Los Angeles, CA, USA **Aug 2018 - May 2024 (Expected)**

PhD, Computer Science

Research Interests: Knowledge Graphs • Machine Learning • Geospatial Artificial Intelligence •
Information Integration • Semantic Web • Data Science

Dissertation: “*Transforming Unstructured Historical and Geographic Data into Spatio-Temporal Knowledge Graphs*” (Advisor: Prof. Craig A. Knoblock)

MSc, Computer Science

Dec 2023

GPA: 3.771/4.0

Tel Aviv University; Tel Aviv, Israel

Feb 2011 - Jan 2015

BSc, Electrical and Electronic Engineering

GPA: 93.33/100 (*magna cum laude*)

EXPERIENCE

Information Sciences Institute; Marina del Rey, CA, USA

Aug 2018 - Present

Research Assistant, *Center on Knowledge Graphs*

- Working on knowledge graphs with an emphasis on automatic spatio-temporal & semantic interpretation of topographic map data as a means to solve complex information integration problems
- Investigating new methodologies to leverage machine & deep learning techniques to establish automatic data understanding & knowledge graph construction in different domains
- Partaking in several projects: MinMod (AI for mineral data), Linked Maps (constructing KGs for spatio-temporal data), MINT (data integration for scientific modeling) & Table Understanding (automated semantic interpretation of tables)
- Semi-finalist at the Amazon Alexa Prize Socialbot Grand Challenge 4 (knowledge integration)
- Supervised & mentored MS student-workers (MINT & Linked Maps projects)
- Supervised & mentored an intern student (IIT Delhi) in the Indo-U.S. Science & Technology Forum (IUSSTF) at USC-ISI working on geospatial semantics

IBM Research; Almaden, San Jose, California, United States

May - Aug 2022

Research Intern, *re*THINK Enterprise*

- Worked on knowledge graphs, ML & data integration in the domain of business transformation
- Designed, implemented & evaluated a user-assisted automatic & fully functional pipeline to convert unstructured client requirements textual data into a contextualized knowledge graph

General Electric Global Research; Niskayuna, NY, USA (online)

May - Aug 2021

Research Fellow Intern, *Analytics Software & Knowledge Discovery*

- Worked at the Artificial Intelligence Technical Domain
- Designed, implemented & evaluated an infrastructure for an automated generation of classification & annotation rules for control concepts in Cyber-physical Systems software using Inductive Logic Programming & Semantic Technologies

Apple; Herzliya, Israel

Jan - Jun 2018

Embedded Firmware Engineer, *Flash Storage Software Department*

- Designed & developed complex software modules for ultra high performance, real-time embedded systems in a multiprocessor environment for Apple products
- Defined firmware features & led HW-FW integrations
- Completed vertical integration with other modules in storage stack (i.e. drivers, file-system)

Mellanox Technologies; Tel Aviv, Israel

2011 - 2017

Senior Firmware Engineer & Team Leader, *Switch Silicon Core Department*

Apr - Jun 2017

- Managed team of 5 engineers
- Led the 100GbE Switch Systems firmware development process & software infrastructure activities - an operation involving 16 engineers

- Developed a distributed functional testing environment; debug tools & performance testing in C++ in Unix for both Ethernet & InfiniBand fabrics in OSI Data-Link & Network layers
- Implemented complex verification architectures consisting of static & dynamic analysis
- Delivered technical presentations to 50+ engineers & developers from various teams including: software, hardware, production & qualification
- Awarded for excellence & ranked “Superior” (top 5% out of 3000)

Team Leader Firmware Engineer, *Switch Silicon Core Department*

May 2015 - Mar 2017

- Managed team of 3 engineers
- Contributed to end-to-end development & defined version-release procedures for the company’s 100GbE Switch products; conducted personal training, code reviews; defined coding-style & methodologies of software engineering for team of 30
- Optimized shared library cross-platform code, resulting in ~40% reduction in project compilation time for 90+ department developers
- Led full silicon bring-up process, both Pre-Silicon & Post-Silicon stages
- Supervised integration processes operating in Beijing (China), Seattle & Sunnyvale (US)

Firmware Engineer, *Switch Silicon Core Department*

Mar 2014 - Apr 2015

- Developed simulation tool to reduce ~50% time in FW development cycle & customer support
- Led the planning & priorities coordination procedure with software architecture & SDK teams
- Developed “Stress” tool that has become major tool for system production/screening, power measurements & debug process

Firmware Student, *Switch Silicon Core Department*

Oct 2011 - Feb 2014

- Developed ANSI-C compiler-specific code to run on Switch Systems RISC
- Managed continuous support & optimization in Switch System Python-based regression scripts
- Implemented cross-platform error-injection tool used by both software departments of Switch Systems & Channel Adapters
- Collaborated with chip-design & software engineers to create a Post-Silicon Random Verification Environment for the 56GbE & EDR (100Gbps Infiniband) technologies

HP Autonomy (Virage); Cambridge, MA, USA

May - Aug 2009

Computer-Science Research Intern, *Advanced Technology Group*

- Studied Statistical Natural Language Processing, Automatic Speech Recognition & Machine Learning; performed model training & testing with Python
- Wrote paper titled “*Improving Text-Independent Speaker Identification Performance Using Gaussian Mixture Speaker Models*” under direction of Dr. David Palmer (HP Autonomy (Virage), Inc)
- Conducted on-campus coursework in scientific theory & off-campus work in scientific research over 6 weeks under sponsorship of the Center for Excellence in Education & MIT as part of the Research Science Institute (RSI)

TEACHING EXPERIENCE

University of Southern California; Los Angeles, CA, USA

Spring & Fall 2020

Teaching Assistant, *DSCI 558: Building Knowledge Graphs*

- Designed & evaluated course examinations, written bi-weekly assignments & weekly quizzes
- Held weekly office hours (2 hours each)
- Designed & delivered 3+ sessions of complete (2 hours) lectures (includes core-material classes & guest lectures)

AWARDS & SCHOLARSHIPS

University of Southern California; Los Angeles, CA, USA

2022

University Outstanding Teaching Assistant Award (Highest Achievement, grant valued \$1k)

Alexa Prize Socialbot Grand Challenge 4; Seattle, WA, USA

2021

Our team was the recipient of a research grant valued \$250k as part of the competition

Modeling and Managing Complicated Systems Institute; Pittsburgh, PA, USA

2019

Recipient of the Ford Foundation Graduate Student Grant (value \$1.6k)

Tel Aviv University; Tel Aviv, Israel

2013

Faculty Dean’s List of Outstanding Undergraduate Students

Tel Aviv University; Tel Aviv, Israel

2013

Recipient of the Freescale Semiconductor Israel Excellence Scholarship (value \$1.2k)
